

Carrico Lifestyle

OFFICE FURNITURE INC. SEPTEMBER 2010 NEWSLETTER

Meet Your Needs . . . Exceed Your Expectations

Carrico Office Furniture gives the discriminating personal computer user, who cares about design, quality furniture, and quality of working environment, a combination of the highest quality furniture at a competitive price.

Carrico provides this discriminating customer with more than a piece of furniture. We provide a quality working environment that includes the integration of technological components that generally exist as part of the executive setting. The quality of manufacturing, materials, and ergonomics found in our products serves to enhance the appearance of an executive's office atmosphere, in turn adding to their status and effectiveness as a decision maker, innovator, and leader.

We understand that our target market needs more than just office furniture. This need grew out of the special requirements of personal computing, when combined with office furniture - keyboards at correct height, monitors at correct height, proper channels for cables, and other amenities. Our target customer wants to have all of that, plus fine furniture. There is a need for quality wood and workmanship throughout. We don't just sell office furniture, we sell design, workmanship, fine materials, and a total-quality office environment.

Choose from our Series 15, 19, 25 and 25 furniture lines or let us custom design furniture as a solution to your specific needs.

Call Dave Carrico to see how we might exceed your expectations!
